

| Organization Name                    | Project Name  | Description  | Recommendation |
|--------------------------------------|---|--|----------------|
| Anderson Museum of Art               | Anderson Museum of Art Historic Carnegie Library Building Flat Roof Replacement | The Anderson Museum of Art must acquire funding to replace the flat parts of its 1905 Carnegie Library building roof. The roof is in dire need of repair to protect the integrity of the building and the sustainability of the facility. The funds requested will be combined with other funds to complete this necessary project. If not fixed in the next year, AMOA will no longer be able to use several walls in the gallery spaces upstairs to protect artwork. Additional interior work will also be needed as the building already has several areas that need plaster work from damage due to leaks and moisture.  | \$5,000.00     |
| Frankton Parks                       | Jefferson Park electrical upgrade   | Jefferson Park electrical upgrade- electric to pavilion, security lights, security camera's and outlets have no disconnect and are not metered. The scope of project would add a weather head and 16 slot breaker box. Outlets in pavilions will be upgraded, Breakers would feed security cameras, security lights. A meter would bring park into Frankton town code. Additionally, a light and outlets are needed in our new utility shed in back of park for maintaining parks. We can also expand our Xmas lights in the park to the back end of Jefferson park.   | \$5,000.00     |
| Gateway Association, Inc.            | Gateway Early Childhood Expansion   | Gateway is working to expand our program by renting four additional rooms from First United Methodist Church, where we are currently located. This expansion would allow us to serve more children, including infants, toddlers, preschoolers, and school age. To serve more children, we not only need more space, furniture, classroom materials, and staffing, but we will also need additional food prep and food service items. Items we plan to purchase include a food warmer holding cabinet with full size sheet pans, a blender, a food processor, a food mixer, steam table pans with lids, serving utensils, food carts, and mini refrigerators. These items would be used to prep, prepare, maintain, and serve food daily.                         | \$5,000.00     |
| Harmony House Mission                | Increase kitchen cooking and serving capacity.                                  | We need to expand the capacity of our soup kitchen to increase our ability to serve hot meals to a growing number of guests. We are asking for assistance to purchase two new commercial grade oven/stoves. Also, another vent hood for one stove. A re-arrangement of the kitchen is required for the new stove, and a new 3 section sink with garbage disposal to handle large pots and pans, and a small hand-washing sink.<br>We know that expanding our capacity to feed more hungry people in our community is the perfect way to increase our footprint in the community. Along with the appliance improvements, we are changing the dining room to allow an increase the number of tables. This means touching more people!                              | \$5,000.00     |
| House of Hope                        | Replacement of Wheelchair Ramp  | This request is for the replacement of the wheelchair ramp. The current ramp is in great disrepair and basically unusable. The railing has broken in three areas and is dislocated from the ramp. It has been repaired several times over the years. The concrete of the ramp is crumbling, making it difficult, if not impossible, to navigate. Those with a disability have to be assisted on the stairs to enter the building. It is believed that the ramp was first built in the mid-1990's. In order to reduce cost, volunteers and equipment have been secured to demo the existing concrete ramp. The remaining work is to be completed by Handy Hoosier Contractors : The labor is being done in-kind, the only cost to House of Hope is the materials. | \$2,306.00     |
| Leadership Academy of Madison County | Office Reception & Mural  | LAMC currently moved out of their office for the last 25 years into a new office suite in the Anderson University Falls School of Business. We have worked hard this month of August to get everything over and make the space accessible for work. Now that we have everything physically moved in, we are looking to create a welcoming, creative, and community building space for our professional meetings.. We are seeking funds to create a coffee/beverage offering area and funds for branding the largest and most blank wall in the suite. We will be partnering with the Anderson University graphic design students and the art department to design the Madison County themed art for the 100 square foot wall space.                              | \$2,500.00     |
| Madison County 4-H Association       | 4-H Building air conditioner compressor repair                                  | The air conditioner compressor in one unit of the 4-H Building at the fairgrounds in Alexandria became inoperable due to a failed motor during July 2023. The model of compressor and associated parts are out of production and new parts cannot be purchased. Replacing the compressor will require refurbished parts to be purchased or a new air conditioning unit.  | \$5,000.00     |

|                               |  |   |                    |
|-------------------------------|--|---|--------------------|
| Park Place Community Center   | Event Room Upgrade Project                   | Our goal is to refresh and update our event rental room: the Markle Community Room. When the Community Center was purchased over a decade ago, we invested finances into the repainting of that room, as well as the installation of a more modern flooring over the original old school classroom flooring that was present. We also invested finances into the purchase of used mobile furniture from a school corporation that was updating their spaces. We were grateful for this affordable way to furnish our new event room, but after almost a decade of added use to these furniture items, we are in need of updated items; specifically tables, chairs and storage racks for the tables/chairs.   | \$5,000.00         |
| Servants at Work              | SAWs ramps for Madison County 2023           | This funding will allow SAWs to construct one wooden ADA compliant ramp for a low income clients (80% of AMI), who is also disabled.  | \$1,500.00         |
| St. John's Lutheran Preschool | Classroom Expansion Project                  | Our plan is to take the next step in our Preschool Classroom Expansion Project. Over the summer of 2023, we remodeled three offices in the front hallway of our building to convert them into a new preschool classroom space. The next step for this expansion is to 1. -remove the hallway carpeting (60 years old), replace it with new vinyl floor tile, 2. - construct a new wall in the hallway with a double door that will separate the preschool space from public space in the building, 3. - construct two walls with doors in an existing office space that will create two office spaces for two staff and an employee breakroom.  | \$5,000.00         |
| The Gathering of the Queens   | Senior/Young Mothers pantry Queens Pantry    | The pantries operate daily by either appointment, drive through, registered Thursdays for seniors/young mothers and one Saturday per month for veterans. The pantries serve 5 days per week and host a blessing box that is operational seven days per week at the Anderson Impact Center. In order for the pantry to operate efficiently there is a need for equipment that will assist us in unloading our truck. The truck also receives and hauls local donations all of which are being unloaded skid by skid, manually. This requires many volunteers to assist. Many volunteers work another job at time the truck donations come in. In order for more donations to be accepted the equipment is needed. This will allow the organization to accept a greater amount of donations to feed more citizens. This will also make for a easier task for those working in the pantry. | \$5,000.00         |
| YMCA                          | Agency Endowment Match-Existing Fund         | The agency's contributions to their Agency Endowment with be matched \$1:\$1 up to \$5,000.   | \$5,000.00         |
| The Christian Center          | Agency Endowment Match-Existing Fund         | The agency's contributions to their Agency Endowment with be matched \$1:\$1 up to \$5,000.   | \$5,000.00         |
| Grace Horizon                 | Agency Endowment Match-Establishing New Fund | The agency's contributions to their Agency Endowment with be matched \$1:\$1 up to \$5,000.   | \$5,000.00         |
| <b>Total Granted</b>          |  |   | <b>\$61,306.00</b> |
